# Opening Poll

# Ice Breaker

**In chat:  
Introduce yourself and  
what you hope to learn  
today or what brings you  
her today?**

# Objectives

- Understand Variety of ways visuals can be used to support all children's learning
- Think about one new thing you can start doing at home, within your routines.
- Ideas about how you can partner with your child's school.
- Visual supports and the IEP

# What are visual supports?

Visual supports are an effective strategy that includes: concrete items, pictures, symbols or printed words and/or a combination of these. These supports may assist children in their ability to maintain attention, understand language, tasks, and sequence and organize their environment .

(<http://www.erinoakkids.ca/getattachment/Resources/Autism/Applied-Behaviour-Analysis/ABA-for-families-Visual-supports.pdf.aspx>)

Visual supports are tools that are used to increase the understanding of language, environmental expectations, and to provide structure and support for individuals

(<http://education.jhu.edu/PD/newhorizons/Journals/specialedjournal/Harris>)

- VISUAL SUPPORTS HELP EVERYONE LEARN!
  - Dual Language Learners
  - Visual Learners
  - Children with diverse learning needs
  - And everyone else

# Visuals: What works best for your child?

1. Object - real object

2. photo

3. picture

4. Line Drawing

5. Text- Book

# Benefits

- Build independence
- Build language skills (both receptive and expressive)
- Learning new skills
- Visuals are static - they remain present after spoken word
- Help children understand and remind them expectations
- Act as a reminder to re-teach appropriate behavior
- Support early literacy development and eventually reading

# Why use them?

Help a child learn a new routine

Get out a piece of paper:  
Do your best to write or  
answer questions.

\*\*if you don't know write  
the question and we can  
answer this in breakout  
room later.

# Making visual supports

- Supplies- Packing tape or Laminator, Laminator paper, printer and internet
- Break down the tasks you need for your individual child and focus on your goal.
- Search and adapt to meet your child's needs.
- ALWAYS pair picture with written word
- Print and Laminate or packing tape or Sheet protector
- Drawing on paper or post it notes

# Individualization

- What size is best... Any vision concerns or needs?  
(2 inches square, larger full sheet etc)
- What stage is my child in? Real pictures, line drawings, clip art, objects (choose what you think works best for your child)
- 
- Any motor needs? (velcro, magnets, or full lamination)

# Make it yourself

Google image - search clip art or line drawing

Use your phone or ipad camera

Post it notes

Drawing in notebook or paper

Drag onto Word document, size correctly and your done!

# Activity

Pick one routine at home

1. How would you like your child to be more independent at it? (change behavior, do it more on their own, communicate more effectively etc)
2. Think about the routine and your child- What pictures could you have to help them learn this?
3. What kind of pictures are best for them (objects, real pictures, clip art, boardmaker etc)
4. Make a list/ Search for similar routine

# Example: Toothbrushing

1. How would you like your child to be more independent at it?

**Brush Teeth Independently (instead of playing in the water)**

2. Think about the routine and your child- What pictures could you have to help them learn this?

**Real pictures of steps (get toothbrush, get toothpaste, toothpaste on, brush teeth (with a timer available) rinse toothbrush, rinse mouth)**

3. What kind of pictures are best for them (objects, real pictures, clip art, boardmaker etc) **clip art**
4. Make a list/ Search for similar routine

toothbrush

toothpaste

put toothpaste on brush

brush teeth

rinse toothbrush

rinse mouth
