# Oregon Legislature Unanimously Approves SB 1606

*Legislation to Guarantee  
People with Disabilities Access  
to Families and Support Staff  
while in the Hospital*

Everyone deserves access to healthcare.  
People with disabilities have the right to have support  
from people they trust while they are in the hospital.

Hospitals in Oregon must allow  
a patient with a disability to designate  
**at least three support persons**

**You get to decide what medical care you get.**  
You don't have to sign forms about your  
end of life care to access healthcare.
